

```
1 #include <stdio.h> //'stdio.h' contains declaration of 'printf()'
2
3 // Entry-Point Function => main() => Valid Return Type (int) and 1 Parameter (int ➤
   argc)
4 int main(int argc)
5 {
6     //code
7     printf("\n\n");
8     printf("Hello World !!!\n\n"); //Library function
9     printf("Number Of Command Line Arguments = %d\n\n", argc);
10    return(0);
11 }
12
13
```
