```c
1  #include <stdio.h> //'stdio.h' contains declaration of 'printf()'
2
3  // Entry-Point Function => main() => No Return Type (void) and No Parameters
      (void), Hence No Command-Line Arguments
4  void main(void)
5  {
6      //code
7      printf("Hello World !!!\n"); //Library function
8  }
9
```
