```c
 1  #include <stdio.h>
 2  int main(void)
 3  {
 4      //variable declarations
 5      int i_num, num, i;
 6
 7      //code
 8      printf("\n\n");
 9
10      printf("Enter An Integer Value From Which Iteration Must Begin : ");
11      scanf("%d", &i_num);
12
13      printf("How Many Digits Do You Want To Print From %d Onwards ? : ", i_num);
14      scanf("%d", &num);
15
16      printf("Printing Digits %d to %d : \n\n", i_num, (i_num + num));
17
18      i = i_num;
19      while (i <= (i_num + num))
20      {
21          printf("\t%d\n", i);
22          i++;
23      }
24
25      printf("\n\n");
26
27      return(0);
28  }
29
```
