```c
1  #include <stdio.h>
2  int main(void)
3  {
4      //variable declarations
5      int i_num, num, i;
6
7      //code
8      printf("\n\n");
9
10     printf("Enter An Integer Value From Which Iteration Must Begin : ");
11     scanf("%d", &i_num);
12
13     printf("How Many Digits Do You Want To Print From %d Onwards ? : ", i_num);
14     scanf("%d", &num);
15
16     printf("Printing Digits %d to %d : \n\n", i_num, (i_num + num));
17
18     i = i_num;
19     do
20     {
21         printf("\t%d\n", i);
22         i++;
23     }while (i <= (i_num + num));
24
25     printf("\n\n");
26
27     return(0);
28 }
29
```
